About the Author
Guy Hart-Davis is the author of more than 40 computer books, including CNET Do-It-Yourself iPod Projects, How to Do Everything with Microsoft Office Word 2007, and How to Do Everything with Microsoft Office Excel 2007.

About the Technical Editors
Marc Campbell is a technology author, graphic designer, and instructor. His popular books on computer topics have appeared around the world in eight languages.

Brandon Jones is the founder of iKaput.com, one of the leading iPod repair companies on the Web. His latest business venture is Sync, bringing iPod repair, accessories, and exchange to a mall near you (synctogo.com).
How to Do Everything
iPod® & iTunes®

Fourth Edition

Guy Hart-Davis
We hope you enjoy this McGraw-Hill eBook! If you’d like more information about this book, its author, or related books and websites, please click here.
This book is dedicated to the people who gave us MP3, AAC, Apple Lossless Encoding, the various iPods, and the iPhone.

Acknowledgments .................................................. xxi
Introduction ..................................................... xxiii

PART I

Enjoy Audio with an iPod or iPhone and iTunes

CHAPTER 1

Choose an iPod or iPhone and Get Your Computer Ready to Work with It ........................................... 3
What Are iPods and iPhones? ........................................ 4
The iPhone and What It Does ...................................... 5
The iPod classic and What It Does .............................. 7
The iPod touch and What It Does .............................. 10
The iPod nano and What It Does .............................. 11
The iPod shuffle and What It Does .......................... 11
Choose the iPod or iPhone That’s Best for You .......... 14
Get Your PC or Mac Ready to Work with an iPod or iPhone .... 15
Get Your PC Ready to Work with an iPod .................. 17
Get Your Mac Ready to Work with an iPod or iPhone .... 21

CHAPTER 2

Configure iTunes and Load the iPod or iPhone ............. 25
Unpack the iPod or iPhone .................................. 26
Install iTunes if It’s Not Already Installed ................. 27
Install iTunes on Your PC .................................. 27
Install or Update iTunes on the Mac ...................... 32
Complete the iPod Setup Assistant ....................... 35
Activate the iPhone .......................................... 36
Start Creating Your Library ..................................... 39
Add Existing Song Files to Your Library ................ 39
Copy CDs to Your Library ................................... 43
Load the iPod or iPhone with Music ....................... 46
Load Only Some Songs from Your Library on an iPod or iPhone .................................................. 46
Configure How the iPod Is Loaded .......................... 48
Load Music on the iPod Manually .......................... 49

For more information about this title, click here
Connect and Load the iPod shuffle ........................................ 49
  Connect the iPod shuffle .................................................. 49
  Load the iPod shuffle ...................................................... 50
Eject and Disconnect the iPod ............................................... 54

CHAPTER 3

Listen to Music on an iPod or iPhone ................................. 57
Connect Your Headphones or Speakers ........................... 58
  Use Headphones with an iPod or iPhone ......................... 59
  Use Speakers with an iPod or iPhone .......................... 60
Get Familiar with the Controls on an iPod classic or iPod nano .. 61
  Read the iPod’s Display ................................................. 61
  Use the iPod’s Controls ................................................ 62
  Browse and Access Your Music ................................. 63
  Play Songs .............................................................. 66
  Use the Hold Switch ................................................ 68
  Recharge the iPod’s Battery to Keep the Songs Coming .... 69
  Navigate the Extras Menu ......................................... 69
  Choose Settings for the iPod .................................. 70
Make the Most of the iPod’s Extra Features ....................... 75
  Use the Sleep Timer to Lull You to Sleep ...................... 75
  Use the iPod’s Alarm Clock to Wake You Up or
    Remind You of an Appointment ............................ 75
Get Alerts for Your Calendar Appointments .................. 76
Create a Playlist on the iPod ........................................ 76
Rate Songs on the iPod ............................................... 77
Use the iPod as a Stopwatch ..................................... 77
Lock the Screen on an iPod ....................................... 77
Play Music on the iPod shuffle ....................................... 77
Play Music on the iPhone or iPod touch ....................... 79
  Switch to iPod Mode .............................................. 80
  Switch to the Browse Category You Want .................. 80
Find the Song or Other Item You Want to Play ............ 81
Play a Song or Other Item ........................................ 82
Use Cover Flow View ............................................... 83
Apply an Equalization to the Music ............................ 83
Create an On-the-Go Playlist .................................. 84
Control Your Music While You’re Using Other Programs .. 86

CHAPTER 4

Extend the iPod’s or iPhone’s Capabilities with
  Hardware Accessories ................................................. 87
Approach Buying iPod or iPhone Accessories ..................... 88
Cases ................................................................. 89
  Choosing a Case .................................................... 89
  Cases for the iPod classic ...................................... 91

CHAPTER 5

Use an iPod or iPhone as Your Home Stereo or Car Stereo  

Equipment an iPod or iPhone with Speakers  
Connect an iPod or iPhone to a Stereo  
Connect an iPod or iPhone to a Stereo with a Cable  
Use a Radio Transmitter Between an iPod or iPhone and a Stereo  
Use an AirPort Express, a Computer, and an iPod  
Connect an iPod or iPhone to a Car Stereo  
Use a Cassette Adapter  
Use a Radio Transmitter  
Wire an iPod or iPhone Directly to a Car Stereo  
Use a Built-in iPod or iPhone Connection

PART II

Create and Manage Your Library

CHAPTER 6

Create Audio Files, Edit Them, and Tag Them  
Choose Where to Store Your Library  
Configure iTunes for the Audio Quality You Want  
Choose the Best Audio Format for Your Needs  
Check or Change Your Importing Settings  
Deal with CDs That Your Computer Can’t Rip  
Understand Copy-Protection Techniques on Audio Discs  
Recognize Copy-Protected Discs  
Know What May Happen When You Try to Use a Copy-Protected Disc on a Computer  
Learn about Ways to Get Around Copy Protection  
Convert Other File Types to Formats an iPod or iPhone Can Play  
Convert a Song from AAC to MP3 (or Vice Versa)  
Convert WMA Files to MP3 or AAC  
Create Audio Files from Cassettes or Vinyl Records  
Connect the Audio Source to Your Computer  
Record on Windows  
Record Audio on the Mac  
Trim Audio Files to Get Rid of Intros and Outros You Don’t Like  
Tag Your Compressed Files with the Correct Information for Sorting  
Tag Songs Effectively with iTunes  
Change Tags with Tag&Rename on Windows  
Change Tags with Media Rage on the Mac  
Save Audio Streams to Disk So You Can Listen to Them Later  
Save Audio Streams with Zinf on Windows  
Save Audio Streams with Total Recorder on Windows  
Save Streams with RadioLover on the Mac
## Contents

### CHAPTER 7

**Buy and Download Songs, Videos, and More Online**

- Understand Digital Rights Management (DRM) ........................................ 182
- Understand That DRM Is Neither “Good” nor “Bad” .............................. 183
- Know a Store’s DRM Terms Before You Buy Any Protected Songs .... 184
- Buy Songs and Videos from the iTunes Store ........................................... 185
  - Understand What the iTunes Store DRM Means ............................. 185
  - Set Up an Account with the iTunes Store ........................................ 187
  - Understand the Terms of Service .................................................. 189
  - Configure iTunes Store Settings .................................................... 190
- Find the Songs and Videos You Want ................................................. 192
- Buy a Song or Video from the iTunes Store ........................................ 196
- Listen to Songs or Watch Videos You’ve Purchased .............................. 198
- Restart a Failed Download ............................................................... 198
- Review What You’ve Purchased from the iTunes Store ......................... 198
- Authorize and Deauthorize Computers for the iTunes Store ................. 198
- Buy Music from the iTunes Wi-Fi Music Store ...................................... 200
- Create iPhone Ringtones from Songs You Buy from the iTunes Store .... 202
- Buy Music from Other Online Music Stores ........................................ 203
  - eMusic .............................................................................. 204
  - Amie Street ........................................................................ 204
  - Amazon.com .......................................................................... 204
  - Napster 2.0 ........................................................................ 205
  - RealPlayer Music Store and Real Rhapsody .................................. 205
  - Walmart.com ........................................................................ 206
- Yahoo! Music Jukebox ....................................................................... 206
- Wippit ....................................................................................... 206
- Russian MP3 Download Sites ............................................................ 206
- Find Free Songs Online .................................................................... 207
  - Find Free Songs on the Online Music Stores .................................. 207
  - Find Free Songs for Legal Download ............................................. 207
  - Find Free Songs for Illegal Download ............................................. 207

### CHAPTER 8

**Burn CDs and DVDs from iTunes**

- Why Burn Song Files to CD or DVD? .................................................. 210
- Understand the Basics of Burning CDs and DVDs ............................... 211
- Burn CDs and DVDs ......................................................................... 212
  - Choose Burning Options ................................................................ 212
  - Burn a CD or DVD ...................................................................... 214
- Print CD Covers and Playlist Listings ................................................ 217
- Troubleshoot Burning CDs and DVDs ................................................ 218
  - Avoid Causing Your Burner Problems ........................................... 218
  - Troubleshoot Specific Problems ..................................................... 225
CHAPTER 9

Make the Most of iTunes

Make the Most of iTunes

Play Music with iTunes

232

Play Back Music with iTunes

232

Listen to Audiobooks on Your iPod or iPhone

236

Improve the Sound of Music

237

Use the Graphical Equalizer to Make the

Music Sound Great

237

Choose Crossfading, Sound Enhancer, and

Sound Check Settings

241

Skip the Boring Intro or Outro on a Song

243

Tweak the iTunes Interface

243

Resize the iTunes Window to the Size You Need

243

Remove the iTunes Store Link Arrows

244

Change the Columns Displayed to Show the

Information You Need

245

Control iTunes via Keyboard Shortcuts

246

Accompany Your Music with Visualizations

246

Control iTunes with the iTunes Widget on Mac OS X

249

CHAPTER 10

Manage Your Library with iTunes

251

Manage Your Library with iTunes

Browse Quickly by Using the Browser Panes

252

Use Views to Skim Through Your Library

254

Sort Your Songs in List View

254

See Your Songs Divided into Albums

255

Flick Through Your CDs in Cover Flow View

256

Search for Particular Songs or Other Items

257

Use Playlists, Smart Playlists, and Party Shuffle

258

Create a Playlist Manually

258

Automatically Create Smart Playlists Based on

Your Ratings and Preferences

260

Mix Up Your Music with Party Shuffle

262

Apply Ratings to Items

263

Add Artwork to Items

264

Set iTunes to Automatically Download Missing

Album Artwork

265

Add Artwork to Songs Manually

265

Consolidate Your Music Library So You Can Always

Access All Its Songs

268

Remove Duplicate Items from Your Library

269

Export and Import Playlists

271

Export Your Library

272

Use Multiple Libraries on the Same Computer

272

Create a New Library

272

Switch to Another Library

273
Share Items and Access Shared Items ........................................ 274
Share Your Library with Other Local iTunes Users .......... 274
Disconnect Other Users from Your Shared Library .......... 277
Access and Play Another Local iTunes User’s Shared Library .. 278
Share Your Music More Effectively with Other Local Users ... 279
Build a Media Server for Your Household ......................... 283
Enjoy Podcasts ............................................................. 285
Configure Podcast Preferences ........................................... 285
Explore Podcasts on the iTunes Store .............................. 287
Add Podcasts from the Internet ........................................ 288
Listen to Podcasts ......................................................... 288

PART III  Put Text and Photos on the iPod

CHAPTER 11 Put Your Contacts and Calendars on the iPod .............. 291
Put Your Outlook Contacts and Calendars on the iPod Automatically 292
Put Your Windows Address Book Contacts on the iPod Automatically 294
Put Your Mac Contacts and iCal Calendars on the iPod Automatically 294
View Your Contacts on the iPod ........................................ 296
View Your Calendar on the iPod ........................................ 296
Put Your Contacts and Calendars on the iPod Manually from Windows ......................................................... 298
Create vCards from Your Contacts on Windows .................. 298
Create Calendar Files from Your Calendars on Windows ....... 298
Enable Disk Mode on the iPod on Windows ...................... 300
Copy the vCards and Calendar Files to the iPod on Windows .... 300
Put Your Contacts and Calendars on the iPod Manually from the Mac .............................................................. 301
Create vCards from Your Contacts on the Mac .................. 301
Create Calendar Files from Your Calendars on the Mac ....... 302
Enable Disk Mode on the iPod on the Mac ...................... 302
Copy the vCards and Calendar Files to the iPod on the Mac . 303

CHAPTER 12 Put Text and Books on the iPod ............................. 305
Understand What Text You Can Put on an iPod classic or iPod nano 306
Use the Notes Feature ...................................................... 307
Use iPod Scripts to Create and Manage Text Notes on the Mac ............................................................... 308
Put the Script Menu on the Mac OS X Menu Bar ............... 310
Put Information on an iPod from Windows ........................................ 311
iGadget .................................................................................. 311
iPod Library ........................................................................... 313
Put Information on an iPod from the Mac ................................. 314
iGadget X ............................................................................. 314
iPDA .................................................................................... 314
Book2Pod ............................................................................ 315
iPodMemo ............................................................................. 315

CHAPTER 13

Put Photos and Videos on the iPod or iPhone .......................... 317
Tell iTunes Which Photos to Put on the iPod or iPhone ............ 318
Choose Whether to Display Album Artwork on the iPod .......... 321
View Photos and Slideshows on the iPod ............................... 321
View Photos on the iPod ....................................................... 321
Choose Slideshow Settings on the iPod ............................... 323
Play a Slideshow on the iPod .............................................. 325
View Photos and Slideshows on the iPhone or iPod touch ....... 325
View Photos on the iPhone or iPod touch ............................. 325
Use a Photo as Wallpaper, E-mail It, or Assign It to a Contact 329
Choose Slideshow Settings for the iPhone or iPod touch ....... 330
Take Photos on the iPhone and Import Them ......................... 330
Take Photos on the iPhone .................................................... 330
View the Photos You’ve Taken on the iPhone ......................... 331
Import Photos from the iPhone ............................................ 331
Put Video Files on the iPod or iPhone ................................... 336
Buy Video Files from the iTunes Store ................................ 336
Play Videos on the iPod ....................................................... 336
Play Videos on the iPhone or iPod touch ............................. 338
Create Video Files Suitable for the iPod or iPhone ................. 339
Create Video Files from Your Digital Video Camera .............. 339
Create Video Files from Your Existing Video Files ............... 340
Create Video Files from Your TiVo ....................................... 343
Create Video Files from Your DVDs ................................... 343

PART IV

Learn Advanced Techniques and Tricks

CHAPTER 14

Use Multiple iPods or iPhones, Multiple Computers, or Both .... 347
Move an iPod from the Mac to Windows—and Back ............... 348
Move an iPod from the Mac to Windows ............................... 348
Move an iPod from Windows to the Mac ............................. 353
Move an iPhone or iPod touch Between Windows and the Mac 354
Change the Computer to Which an iPod or iPhone Is Linked .... 354
